

original

** Please note that your finished drawing will not possess color nor will it be shaded, use lines only**
** Your finished drawing should look realistic, not like a cartoon **

Directions:

1. Draw 1 Horizon Line, 2 VP's
2. Draw 1 or two roads; key: a road consists of two lines that line up with the same vanishing point
3. Draw 5 2pt boxes of varying sizes; these will be the foundation upon which your buildings will be created, do NOT add detail to buildings yet i.e.; windows, doors, signs, cross walks etc., you will do this later
4. Check for accuracy of buildings correctly lining up with both vanishing points
5. Add detail to buildings: windows, doors (these are lined up with the vanishing points of the side that they are located), i.e.; windows/doors on the left side of the building line up with the left vp.
6. Perform a final check for accuracy,
